

IMPAC TALKING POINTS

- IMPAC is the largest physician sponsored Political Action Committee (PAC) in Illinois and has successfully supported physician-friendly candidates in the General Assembly.
- 2020 is an election year when physicians and the family members of physicians have a real opportunity to determine the legislators who represent you Springfield.
- IMPAC combines the individual political resources of physicians and those who want to support the house of medicine into a powerful organization of collective action.
- IMPAC helps protect physicians against harmful policies introduced by other special interest groups, ensuring that physicians can practice the art and science of medicine in Illinois.
- If it is not the trial lawyers, it is the insurance companies, non-physician practitioners, onerous regulations, or other forces that want to interfere with a physician's freedom to practice medicine.
- A healthy IMPAC is essential to keeping physicians politically strong in Illinois. Our opponents such as the medical malpractice lawyers are trying to raise money to defeat our physician-friendly candidates.
- Your contribution to and membership in IMPAC will assure that we remain vigilant for the next attack on medicine.
- IMPAC works to support the practice of medicine and physicians by identifying and supporting physician friendly candidates in the electoral process.
- Your contribution is needed to sustain IMPAC's strength if we are to effectively continue representing physician interests in Springfield.
